

CINCINNATI FIT BODY BOOT CAMP

KITCHEN MAKEOVER QUESTIONNAIRE

There's a fundamental law of human nutrition that goes like this:

If a food is in your possession or located in your residence, you will eventually eat it.

Whether you plan to or not, whether you want to or not, you'll eventually eat it! Trust me. Therefore, according to this important law of human nutrition, if you wish to be healthy and lean, you must remove all foods that aren't part of your healthy eating program and replace them with a variety of better, healthier choices.

How do you know which foods have got to go and which foods can stay? Simply answer the questions below by selecting the response most appropriate to your situation. Once you've completed all the questions, your score will be calculated. And remember, be honest. You're doing this exercise to find whether your kitchen is in good shape.

YOUR SCORE AND WHAT IT MEANS

32 to 63 points:

You've scored high on the kitchen overall questionnaire. But this high score means you're not doing so well in the kitchen department. In fact, if your kitchen stays in this condition you'll have better luck winning the lottery than getting great body composition, health, and performance results. Since you're in need of an Extreme Makeover – The Kitchen Edition, here's what to do:

Step 1: Go grab an extra-large shopping bag.

Step 2: Without thinking about it, open that bag up and with your forearm, sweep every offensive food item from your fridge, freezer, and cupboards right in. These include all items from questions 4 and 5 above.

Step 3: Wave goodbye as this food rolls away on the back of a garbage truck.

Step 4: Get to the grocery store immediately, and pick up the foods listed in questions 2 and 3 above.

0 to 31 points:

Your kitchen's not the worst I've seen, but could certainly use some improvement here and there. Take a look at the inventory above and make sure you've got all the items listed in questions 1 through 3 and few of the items from questions 4 and 5. Begin shopping more frequently, eating fresher items, and being more aware of the foods that you're eating and when. Only then will you be equipped for success.

-31 to -1 points:

Nice job; you're doing pretty well in the kitchen department. In fact, with a few minor tweaks, your kitchen will be 100% ready to go. Revisit the questions above and figure out exactly what it'll take to get closer to a perfect score of -63.

-32 to -63 points:

Don't let the negative scores fool you! Negative scores on the kitchen overhaul questionnaire means that you don't need much of a makeover. And that's great! Congratulations on your kitchen set-up. With your kitchen full of these good foods (like those listed in questions 2 and 3 above) and the right appliances, you'll be the envy of all your fitness and nutrition-conscious friends.
